

Bereket Gebreyesus

Full Stack/Frontend Developer

Passionate Full Stack/Frontend Web Developer with experience in modern JavaScript (MERN stack) and WordPress (PHP). For me, web app development is more than just writing code. Is to communicate and work in collaboration with others in a team and to be curious and open to criticism and different approaches, to solve problems, telling stories thought visual representation and to continue doing what I love, in a challenging but friendly environment.
